## **DETAILED ACTION**

### ***Claim Objections***

Claim 9 is objected to because of the following informalities: Claim 9 depended on claim 10, in which is improper. Appropriate correction is required.

### ***Allowable Subject Matter***

Claims 1-8, and 10-18 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or suggest a light coupling assembly structure having a first member for being secured to a light source housing, said first member being formed of a heat conducting material, a second member formed of a heat insulating material, said second member being securely connected to said first member such that at least a portion of said first member is at least partially surrounded by said second member; and a light transmitting member extending within said first member and said second member for delivering light from a light source when the first member is positioned proximate the light source as recited in independent claims 1 and 10.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

**Conclusion**

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Davis (US Pat.No 6,942,372), Tani (US Pat. No 6,905,214), Koren et al (US Pat. No 6,422,730), Davenport et al (US Pat. No 6,302,571), Chen et al (US Pat. No 6,089,741), and Miller et al (US Pat. No 5,967,653) all are cited of interest.
